

SCREEN 1 OF 2 | PREFERENCES

Tell us what you are looking for

Six questions, about one minute. We use them to build a short list of jobs and master's programs that fit you, with the reasons.

1. Career goal

Work in marketing analytics

2. Field of study

Business administration

3. Preferred location

Madrid, or remote

4. Budget for a master's program

Up to EUR 15,000

Skip if you only want jobs

5. Application deadlines that matter to you

Before 31 January

6. Remote or on-site

Hybrid

Show my shortlist

For the tester: the answers on this screen are a sample profile so everyone sees the same thing. You can say what you would change. No CV or personal details are asked for.

Your shortlist: 4 options, with reasons

Based on: marketing analytics, business, Madrid or remote, up to EUR 15,000, deadline before 31 January, hybrid.

OpenPath

JOB

Strong fit

Junior Marketing Analyst

Northbridge Analytics (sample) | Madrid | Hybrid | Apply by 20 Jan

WHY IT FITS

- + Matches your goal: marketing analytics
- + Madrid and hybrid, as you asked
- + Deadline is before 31 January

WHAT DOES NOT FIT

- Asks for basic SQL; you have not listed it

MASTER'S

Strong fit

MSc in Business Analytics

Sample University (sample) | Madrid | EUR 14,000 | Apply by 15 Jan

WHY IT FITS

- + Builds analytics skills for your goal
- + Within your EUR 15,000 budget
- + Madrid; deadline before 31 January

WHAT DOES NOT FIT

- Fully on-site, not hybrid

JOB

Partial fit

Graduate Consultant

Sample Consulting Group (sample) | Barcelona | On-site | Apply by 10 Feb

WHY IT FITS

- + Structured graduate program
- + Analytics work is part of the role

WHAT DOES NOT FIT

- Barcelona, not Madrid
- On-site only
- Deadline is after 31 January

MASTER'S

Partial fit

Master in Digital Marketing (online)

Sample Business School (sample) | Remote | EUR 18,000 | Apply by 28 Jan

WHY IT FITS

- + Remote is allowed by your location choice
- + Marketing focus; deadline before 31 January

WHAT DOES NOT FIT

- EUR 18,000 is above your EUR 15,000 budget
- More marketing than analytics

ROUGH TEST | INTENTIONAL EXCLUSIONS

What this test includes, and what we left out on purpose

The prototype is small on purpose: only the step that could break the idea can be inspected.

Included

- IN** A six-field preference screen, taken from the Experiment Card
- IN** A shortlist of 4 options mixing jobs and master's programs
- IN** For each option: why it fits and what does not fit
- IN** A fit label (strong, good, partial), shown together with its reasons

Left out on purpose

- OUT** A real matching engine or live AI: the shortlist is hand-written
- OUT** Real listings, employers or universities: every name is fictional
- OUT** CV or profile upload: willingness to share is asked in the survey instead
- OUT** Application step, tailored CVs, motivation letters
- OUT** Accounts, saved profiles, deadline reminders

RISKIEST ASSUMPTION UNDER TEST (GROUP WORDING)

Users will trust and use AI-generated opportunity recommendations as a first step in their decision process.
